[Affiliated to National Confederation of General Insurers Officers' Association]

hiring & lateral entry in insurance industry will not serve purpose as the officer hired will take at least another five years to understand the working of any department.

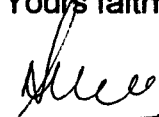

We have also reiterated our demand for one more option to join the pension scheme. The GIPSA Chairman has stated that for New India alone it will cost 626 crores and industry overall it will cross Rs.3000 crores. We had requested the Management to provide us data for the same.

We also, regret to note the partisan attitude of few region incharges against NIAOA cadres and it has been brought to the notice of Management.

The Officer community and employees at large have become frustrated due to delay in wage revision and their patience should not be tested any further which may lead to industrial unrest. If, the present stalemate continues in spite of our good gesture last time, we will be forced to recall our strike programme and we are sure to receive wholehearted support and active participation from all our members to any industrial action as situation demands.

With warm regards,

Yours faithfully,

S. BALAN
GENERAL SECRETARY
NIAOA
